XI. MEETING OF INTERVENTIONAL RADIOLOGISTS OF CROATIA

with international participation

Section for Interventional Radiology of the
Croatian Society of Radiologists
Croatian Society of Radiologists
Croatian Medical Association

Hotel Solaris
Šibenik, from 25th to 28th of May 2017

Dear colleagues,
dear friends and associates,

Interventional radiology has become a profession treating a number of pathological conditions in cooperation with other clinical professions. It is the cooperation between several professions that is crucial in our daily work and in the approach to numerous challenges. This is why the Section for Interventional Radiology of the Croatian Society of Radiologists (sIRcro) traditionally organizes biennial international meetings.

I am very pleased to announce on behalf of the sIRcro Board that the

XI. MEETING OF INTERVENTIONAL RADIOLOGISTS OF CROATIA WITH INTERNATIONAL PARTICIPATION

- sIRcro 2017

will take place from 25th to 28th of May in hotel Solaris in Šibenik, Dalmatia region.

The meeting will consist of a number of international and Croatian speakers, educational workshops for interventional radiologists and young professionals, thematic round table discussions and a satellite symposium of nurses and radiology technicians. Also, we will try to open possibility of meeting Interventional radiology societies of our friendly countries Czech Republic and Turkey, Croatian Society for Vascular Surgery, as well as representatives of CIRSE.

By the choice of topics and organizational scheme of round tables we would like to draw attention to the importance of cooperation between different clinic professions. The purpose of such concept of the Meeting of Interventional Radiologists and other professions is the affirmation of interventional radiology in undergraduate courses as well as in the education of radiologists and its importance in other fields. With this aim, beside interventional radiologists, Šibenik will host experts of similar professions (cardiology, gastroenterology, oncology, angiology, pulmonology, gynecology, neurology, vascular surgery, cardiac surgery...).

Trusting You will appreciate the importance of this meeting, I wish you a warm welcome on behalf of the sIRcro Board and on my own behalf.

Sincerely,

Prof. Vinko Vidjak, MD, PhD,
Board President of IR Section – sIRcro,
OC President of XI. sIRcro 2017
